### **SOCIAL JUSTICE STATEMENT**

Relying on results obtained from physics, genetics and neuroscience, as well as on increasingly powerful computing capabilities, profound interventions on living organisms are now possible.

Even the human body is subject to interventions capable of modifying not only its functions and capabilities, but also its ways of relating on personal and societal levels, with the result that it is increasingly exposed to market forces. There is a pressing need, then, to understand these epochal changes and new frontiers in order to determine how to place them at the service of the human person, while respecting and promoting the intrinsic dignity of all. ... This process of research and evaluation thus entails the workings of the moral conscience and, for the believer, is part of his or her relationship with the Lord Jesus, in the desire to put on the mind of Christ in our actions and choices (cf. *Phil 2:5*)- *Pope Francis "Humana Communitas" 6 January 2019*

### **TAKE A RISK AND GIVE THE GIFT OF FAITH**

In our parish, there is a team of volunteers that take a risk and step out in faith. State Government schools do not provide lessons that teach the basic message about Jesus, our faith, and the great adventure that life can be with God. We were all given our gift of faith by someone—someone who stepped-up for us so that we would know Jesus. Each week of the school year, catechists present 30-minute lessons using a step-by-step lesson plan that helps Catholic children understand their faith, grow in love and maturity, and learn what it means to be Catholic. Take a risk and give the gift of faith. Become a catechist teacher or helper today! For more information, please call 4222 2416 or ask our parish priest for more information.
